

Exam FX – New Registration

Step By Step Instructions – Colorado

The New process is much more complicated than the previous Testeachersonline.com so we've outlined it here.

Live Class Schedules

More info later on why this is a good idea....

You can check dates for live classes here

<http://www.examfonline.com/calendars/>

You need to register at least a week or more in advance to receive books at lowest shipping rate.

Day 1 is Life, Day 2 is Health

NOTE – They no longer keep books at the center making it impossible for last minute sign ups. However – choose a date further out, ship the books faster – and worst case we have sets of previous student books that we can give you so that you have them for your class! As long as you are registered, you can change classes.

Study Options

We have found that the folks that take the live in-person class generally enjoy the process and have a higher pass rate than those that study on-line on their own. The instructors teach to how to pass the exam which is better than just getting the material presented via book / video. This is especially true for busy part-time people that quickly have other priorities. Also know that the 8 hour class time is the equivalent of many more of those hours for self study.
